SUBJECT INDEX

Algorithms

GHOST: Project Network Generator, D. Navinchandra, D. Sriram and R. D. Logcher, CP July 88 p239-254.

Interactive Concrete Column Design, R. D. VanLuchene, CP July 88 p274-288.

Near-Optimality Analysis for Linear Models, Avinash M. Nafday, Ross B. Corotis and Jared L. Cohon, CP Jan. 88 p91-95.

Primary/Secondary Compression Solution Algorithm, Hywel Rhys Thomas and Karim Bendani, CP Oct. 88 p380-397.

Aquifers

Macro-Spreadsheet Programming Applied to Well Drawdown, M. E. Neis, J. M. Wigham and V. V. Neis, CP Apr. 88 p121-135.

Artificial intelligence

Example of Intelligent Structural Design System, Chee-Kiong Soh and Ai-Kah Soh, CP Oct. 88 p329-345.

Automation

Automated Processing of Design Standards, Jose R. Cronembold and Kincho H. Law, CP July 88 p255-273.

Bridges, truss

Knowledge Based System for Design of Bridge Trusses, H. Adeli and K. V. Balasubramanyam, CP Jan. 88 p1-20.

Building codes

Generic Design Standards Processing in an Expert System Environment, William J. Rasdorf and TsoJen E. Wang, CP Jan. 88 p68-87.

Change orders

Generic Design Standards Processing in an Expert System Environment, William J. Rasdorf and TsoJen E. Wang, CP Jan. 88 p68-87.

Claims

Representing Construction Contract Legal Knowledge, Zaki M. Kraiem and James E. Diekmann, CP Apr. 88 p202-211.

Clays

Primary/Secondary Compression Solution Algorithm, Hywel Rhys Thomas and Karim Bendani, CP Oct. 88 p380-397.

Columns

Interactive Concrete Column Design, R. D. VanLuchene, CP July 88 p274-288.

Compression

Primary/Secondary Compression Solution Algorithm, Hywel Rhys Thomas and Karim Bendani, CP Oct. 88 p380-397.

Computer aided drafting (CAD)

Automated Processing of Design Standards, Jose R. Cronembold and Kincho H. Law, CP July 88 p255-273.

Computer languages

Representation of Structural Design Knowledge in a Symbolic Language, Y. J. Paek and H. Adeli, CP Oct. 88 p346-364.

Computer programs

Soft Logic in Network Analysis, Samer Tamimi and James Diekmann, CP July 88 p289-300.

Computer software

Automated Processing of Design Standards, Jose R. Cronembold and Kincho H. Law, CP July 88 p255-273.

Computerized design

Generic Design Standards Processing in an Expert System Environment, William J. Rasdorf and TsoJen E. Wang, CP Jan. 88 p68-87.

Representation of Structural Design Knowledge in a Symbolic Language, Y. J. Paek and H. Adeli, CP Oct. 88 p346-364.

Concrete, reinforced

Interactive Concrete Column Design, R. D. VanLuchene, CP July 88 p274-288.

Prototype Hybrid Expert System for R/C Design, Michael S. Jones and Victor E. Saouma, CP Apr. 88 p136-143.

Connections

Analysis of Nonlinear Connection Systems in Wood Dwellings, Anton Polensek and Boyd D. Schime, CP Oct. 88 p365-379.

Consolidation, soils

Primary/Secondary Compression Solution Algorithm, Hywel Rhys Thomas and Karim Bendani, CP Oct. 88 p380-397.

Construction

GHOST: Project Network Generator, D. Navinchandra, D. Sriram and R. D. Logcher, CP July 88 p239-254.

Construction management

Knowledge-Based Approach to Project Scheduling System Selection, E. William East, CP Oct. 88 p307-328.

Contracts

Representing Construction Contract Legal Knowledge, Zaki M. Kraiem and James E. Diekmann, CP Apr. 88 p202-211.

Critical path method

Soft Logic in Network Analysis, Samer Tamimi and James Diekmann, CP July 88 p289-300.

Databases

Data Exchange for Collaborating Structural Design Programs, John H. Grubbs, Lanse M. Leach and Kincho H. Law, CP Apr. 88 p144-159.

Decision making

Framework for Decision-Making on Implementing Robotics in Construction, Miroslaw J. Skibniewski, CP Apr. 88 p188-201.

Design criteria

Generic Design Standards Processing in an Expert System Environment, William J. Rasdorf and TsoJen E. Wang, CP Jan. 88 p68-87.

Near-Optimality Analysis for Linear Models, Avinash M. Nafday, Ross B. Corotis and Jared L. Cohon, CP Jan. 88 p91-95.

Design modifications

Generic Design Standards Processing in an Expert System Environment, William J. Rasdorf and TsoJen E. Wang, CP Jan. 88 p68-87.

Design standards

Automated Processing of Design Standards, Jose R. Cronembold and Kincho H. Law, CP July 88 p255-273.

Generic Design Standards Processing in an Expert System Environment, William J. Rasdorf and TsoJen E. Wang, CP Jan. 88 p68-87.

Drawdown

Macro-Spreadsheet Programming Applied to Well Drawdown, M. E. Neis, J. M. Wigham and V. V. Neis, CP Apr. 88 p121-135.

Dynamic response

Transient Analysis of Viscoelastic Tapered Bars and Shafts, Constantine Chris Spyrakos, CP Jan. 88 p53-67.

Evaluation

Formal Evaluation of the Expert System DEMOTOX, Phillip J. Ludvigsen and R. Ryan Dupont, CP Oct. 88 p398-412.

Expert systems

Automated Interpretation for Sensing In Situ Conditions, Kenneth R. Maser, CP July 88 p215-238.

Expert System for the Evaluation of Rail/Highway Crossings, Ardeshir Faghri, Sarath C. Joshua and Michael J. Demetsky, CP Jan. 88 p21-37.

Formal Evaluation of the Expert System DEMOTOX, Phillip J. Ludvigsen and R. Ryan Dupont, CP Oct. 88 p398-412.

Framework for Decision-Making on Implementing Robotics in Construction, Miroslaw J. Skibniewski, CP Apr. 88 p188-201.

Generic Design Standards Processing in an Expert System Environment, William J. Rasdorf and TsoJen E. Wang, CP Jan. 88 p68-87.

Knowledge Acquisition for Domain Experts, Louis F. Cohn, Roswell A. Harris and William Bowlby, CP Apr. 88 p107-120.

Knowledge Based System for Design of Bridge Trusses, H. Adeli and K. V. Balasubramanyam, CP Jan. 88 p1-20.

Prototype Hybrid Expert System for R/C Design, Michael S. Jones and Victor E. Saouma, CP Apr. 88 p136-143.

Representing Construction Contract Legal Knowledge, Zaki M. Kraiem and James E. Diekmann, CP Apr. 88 p202-211.

Finite element method

Transient Analysis of Viscoelastic Tapered Bars and Shafts, Constantine Chris Spyrakos, CP Jan. 88 p53-67.

Finite elements

Microcomputer Applications of 1-D Saltwater Intrusion Program, Dinshaw N. Contractor, CP Apr. 88 p160-170.

Framed structures

Analysis of Nonlinear Connection Systems in Wood Dwellings, Anton Polensek and Boyd D. Schime, CP Oct. 88 p365-379.

Groundwater

Microcomputer Applications of 1-D Saltwater Intrusion Program, Dinshaw N. Contractor, CP Apr. 88 p160-170.

Groundwater pollution

Formal Evaluation of the Expert System DEMOTOX, Phillip J. Ludvigsen and R. Ryan Dupont, CP Oct. 88 p398-412.

Hazardous waste

Formal Evaluation of the Expert System DEMOTOX, Phillip J. Ludvigsen and R. Ryan Dupont, CP Oct. 88 p398-412.

Inspection

Automated Interpretation for Sensing In Situ Conditions, Kenneth R. Maser, CP July 88 p215-238.

Interactive graphics

Example of Intelligent Structural Design System, Chee-Kiong Soh and Ai-Kah Soh, CP Oct. 88 p329-345.

Interactive systems

Data Exchange for Collaborating Structural Design Programs, John H. Grubbs, Lanse M. Leach and Kincho H. Law, CP Apr. 88 p144-159.

Interactive Load and Resistance Factor Design of Steel Frames, H. Adeli and H. R. Chu, CP Jan. 88 p38-52.

Interfaces

Data Exchange for Collaborating Structural Design Programs, John H. Grubbs, Lanse M. Leach and Kincho H. Law, CP Apr. 88 p144-159.

Knowledge acquisition

Knowledge Acquisition for Domain Experts, Louis F. Cohn, Roswell A. Harris and William Bowlby, CP Apr. 88 p107-120.

Knowledge-based systems

GHOST: Project Network Generator, D. Navinchandra, D. Sriram and R. D. Logcher, CP July 88 p239-254.

Knowledge Acquisition for Domain Experts, Louis F. Cohn, Roswell A. Harris and William Bowlby, CP Apr. 88 p107-120.

Knowledge Based System for Design of Bridge Trusses, H. Adeli and K. V. Balasubramanyam, CP Jan. 88 p1-20.

Knowledge-Based Approach to Project Scheduling System Selection, E. William East, CP Oct. 88 p307-328.

Representation of Structural Design Knowledge in a Symbolic Language, Y. J. Paek and H. Adeli, CP Oct. 88 p346-364.

Lakes

3-D General Movable Mesh in Water Circulation Modeling, Semaan Sarraf, René Kahawita and Nassir Eljabi, CP Apr. 88 p170-187.

Legal factors

Representing Construction Contract Legal Knowledge, Zaki M. Kraiem and James E. Diekmann, CP Apr. 88 p202-211.

Linear programming

Near-Optimality Analysis for Linear Models, Avinash M. Nafday, Ross B. Corotis and Jared L. Cohon, CP Jan. 88 p91-95.

Load resistant factor design

Interactive Load and Resistance Factor Design of Steel Frames, H. Adeli and H. R. Chu, CP Jan. 88 p38-52.

Microcomputers

Interactive Concrete Column Design, R. D. VanLuchene, CP July 88 p274-288.

Microcomputer Applications of 1-D Saltwater Intrusion Program, Dinshaw N. Contractor, CP Apr. 88 p160-170.

Soft Logic in Network Analysis, Samer Tamimi and James Diekmann, CP July 88 p289-300.

Network analysis

Soft Logic in Network Analysis, Samer Tamimi and James Diekmann, CP July 88 p289-300.

Optimal design

Knowledge Based System for Design of Bridge Trusses, H. Adeli and K. V. Balasubramanyam, CP Jan. 88 p1-20.

Optimization

Near-Optimality Analysis for Linear Models, Avinash M. Nafday, Ross B. Corotis and Jared L. Cohon, CP Jan. 88 p91-95.

Processing

Automated Processing of Design Standards, Jose R. Cronembold and Kincho H. Law, CP July 88 p255-273.

Project management

GHOST: Project Network Generator, D. Navinchandra, D. Sriram and R. D. Logcher, CP July 88 p239-254.

Knowledge-Based Approach to Project Scheduling System Selection, E. William East, CP Oct. 88 p307-328.

Soft Logic in Network Analysis, Samer Tamimi and James Diekmann, CP July 88 p289-300.

Prototypes

Prototype Hybrid Expert System for R/C Design, Michael S. Jones and Victor E. Saouma, CP Apr. 88 p136-143.

Railroad grade crossings

Expert System for the Evaluation of Rail/Highway Crossings, Ardeshir Faghri, Sarath C. Joshua and Michael J. Demetsky, CP Jan. 88 p21-37.

Robotics

Framework for Decision-Making on Implementing Robotics in Construction, Miroslaw J. Skibniewski, CP Apr. 88 p188-201.

Salt water intrusion

Microcomputer Applications of 1-D Saltwater Intrusion Program, Dinshaw N. Contractor, CP Apr. 88 p160-170.

Scheduling

GHOST: Project Network Generator, D. Navinchandra, D. Sriram and R. D. Logcher, CP July 88 p239-254.

Knowledge-Based Approach to Project Scheduling System Selection, E. William East, CP Oct. 88 p307-328.

Sensors

Automated Interpretation for Sensing In Situ Conditions, Kenneth R. Maser, CP July 88 p215-238.

Shafts

Transient Analysis of Viscoelastic Tapered Bars and Shafts, Constantine Chris Spyrakos, CP Jan. 88 p53-67.

Shallow water

3-D General Movable Mesh in Water Circulation Modeling, Semaan Sarraf, René Kahawita and Nassir Eljabi, CP Apr. 88 p170-187.

Signal processing

Automated Interpretation for Sensing In Situ Conditions, Kenneth R. Maser, CP July 88 p215-238.

Spreadsheets

Macro-Spreadsheet Programming Applied to Well Drawdown, M. E. Neis, J. M. Wigham and V. V. Neis, CP Apr. 88 p121-135.

Steel frames

Interactive Load and Resistance Factor Design of Steel Frames, H. Adeli and H. R. Chu, CP Jan. 88 p38-52.

Structural analysis

Analysis of Nonlinear Connection Systems in Wood Dwellings, Anton Polensek and Boyd D. Schime, CP Oct. 88 p365-379.

Structural design

Data Exchange for Collaborating Structural Design Programs, John H. Grubbs, Lanse M. Leach and Kincho H. Law, CP Apr. 88 p144-159.

Example of Intelligent Structural Design System,

Chee-Kiong Soh and Ai-Kah Soh, CP Oct. 88 p329-345.

Prototype Hybrid Expert System for R/C Design, Michael S. Jones and Victor E. Saouma, CP Apr. 88 p136-143.

Representation of Structural Design Knowledge in a Symbolic Language, Y. J. Paek and H. Adeli, CP Oct. 88 p346-364.

Three-dimensional models

3-D General Movable Mesh in Water Circulation Modeling, Semaan Sarraf, René Kahawita and Nassir Eljabi, CP Apr. 88 p170-187.

Trusses

Knowledge Based System for Design of Bridge Trusses, H. Adeli and K. V. Balasubramanyam, CP Jan. 88 p1-20.

Uncertainty analysis

Soft Logic in Network Analysis, Samer Tamimi and James Diekmann, CP July 88 p289-300.

Vibration

Transient Analysis of Viscoelastic Tapered Bars and Shafts, Constantine Chris Spyrakos, CP Jan. 88 p53-67.

Viscoelasticity

Transient Analysis of Viscoelastic Tapered Bars and Shafts, Constantine Chris Spyrakos, CP Jan. 88 p53-67.

Water circulation

3-D General Movable Mesh in Water Circulation Modeling, Semaan Sarraf, René Kahawita and Nassir Eljabi, CP Apr. 88 p170-187.

Wooden structures

Analysis of Nonlinear Connection Systems in Wood Dwellings, Anton Polensek and Boyd D. Schime, CP Oct. 88 p365-379.
